Sutton COLLECTION by OfficeSource®

NEW! COLLECTION

OfficeSource® 05030

Inspired by Biedermeier style, the Sutton collection is comfortably contemporary, showcasing a warm fruitwood finish and contrasting black cove and black bead molding. The tops have reversed diamond matched veneers with a black inlaid border. The posts of the cases are quarter-round and the drawers are accented by half-round molding and ash colored drawer pulls. Sutton is crisp and contemporary without seeming out of place in traditional settings because of the warm finish and understated design elements.

MODULAR
ELECTRIC SYSTEMS

HOW TO ORDER:

1. Determine the configurations that need powered and electrical load requirements.
2. Choose **Base Feed.****
3. Establish placement of **Power Blocks**.
4. Identify **Receptacles** per power block.
5. To figure harness length, take the center of the item, where the power blocks are to be placed, plus the length of any items the harness needs to pass under. Subtract 7" and use the next larger size harness, unless measurement is exactly the size of a harness.

For Example:

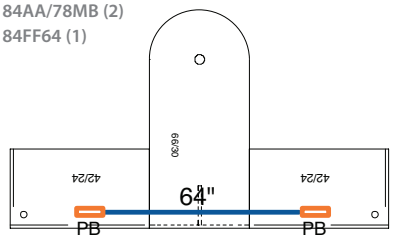

Sample #1- The power blocks are centered in the 42" returns, so half the return size is 21" for each return (21" + 21") plus 30" depth of the peninsula, minus 7".

(21" + 21" + 30" - 7" = **65" harness length**)

6. Determine needed accessories.
